# Our Philosophy

There is a legendary place described in hundreds of poems written during the Middle Ages... A place where the concept of luxury was defined for the first time centuries ago... A place where eternal spring reigns... The temperature never changes... Everybody is in love... Everybody is happy... There are healing pools everywhere... Everyone feels great...

Centuries later, a brand-new concept called Spa has come into our lives... That legend has come true... It was the reason for the existence of Crassula Spa... To create a magical world which will make you feel better... The uniquely sophisticated treatments refresh your mind and body energy... The most luxurious, most effective treatments, massages worldwide... The most distinguished materials, magic scents... Pools, bathrooms, recreation areas...

All at *Crassula* SPA which uses the healing power of water with the understanding of "Sanus Per Aquam"...
